Defeating Evil

Hu Charlie Ka Yeung (4B)

Professor Power is the brave hero who protected his planet. He found that some evil power was approaching. 'Alright team, we have to find a way to defeat Cyborg Cyber!' said Professor Power. Fragrance Flamer said, 'If we somehow find a way to control the Minigun Minions get into CC and attack him instead of us, we might have a chance!' 'Good idea! Technology Tank, any plan to do that?' asked Professor Power. 'There is a micro chip which can control the Minigun Minions. We have to steal it from one of them, thus, we may get a chance to win!' Without saying anything, Professor Power nodded his head and the trios set off.

The two teams met and battled with confidence as Technology Tank stole the chip without Cyborg Cyber's notice. Technology Tank put the chip in his body and controlled the Minigun Minions to attack Cyborg Cyber. Cyborg Cyber could not response and not for long he died quickly. The trios defeated Cyborg Cyber! Professor Power once again, protected his planet.
