I was absent from school this morning. I felt unwell when I woke up. I was ill. I had a fever and a runny nose. My mum gave me a thermometer and an ice bag. She felt worried. Mum took me to see a doctor.

There were a lot of patients in the clinic. One of the patients was coughing and sneezing. He didn't wear a mask. I thought all of them were feeling unwell. We waited for an hour.

After an hour., it was my turn. The doctor said I had a cold. He told me to take more rest and take medicine on time. The doctor also told me to rest at home for one week.

I still didn't feel great, but I felt much better than I did this morning because I have a good rest. What a terrible day!
