

Forces of nature

6B Lui Ngo Wang, Cyrus

Lily was not a kind or helpful person, she was selfish. She had never even thought of doing any charity work, that is why she had never donated even a dollar to charity.

One night, after Lily had dinner, she watched a documentary about an earthquake in Tokyo in Japan. There was a man hiding under a table, being a scaredy-cat. Lily thought that the documentary was very boring.

After watching the documentary on TV, Lily went to bed. When she fell asleep, she had a nightmare, in her nightmare she was in an earthquake and the houses were destroyed. She had to live in a tent without a blanket, she was cold and so frightened that she woke up.

From then on, Lily donated money to the needy and have done a lot of charity work.
